MEETING SPACE

Named after ancient Egyptian precious stones and Red Sea treasures, the conference and catering facilities at Fairmont Towers, Heliopolis are by far the largest and best-equipped in Cairo. More than 4,500 square meters (48,500 square feet) of banqueting space — and innovative themed coffee breaks, meals and cocktail receptions — ensure an air of unrivaled luxury in unforgettable settings. We can accommodate small, intimate meetings or up to 2,250 guests for a reception; 1,400 for table seating.

We offer five meeting spaces, a main ballroom and two bars located in the prefunction area.

MEZZANINE LEVEL

Three function rooms are located on the mezzanine level: Amber, Turquoise and Onyx (which is a fully equipped smart room). The Amber and Turquoise rooms are 111 square meters each and can each accommodate

96 guests seated reception style, 84 guests theater style, 60 delegates in classroom seating, 48 at round tables and 27 in a U-shape design.

The Onyx room is 130 square meters and can accommodate 120 guests seated reception style, 110 guests theater style, 72 delegates in classroom seating, 64 at round tables and 31 in a U-shape design.

The Business Center, also on the mezzanine level, has its own pantry and two boardrooms.

LOWER MEZZANINE LEVEL

The level has two meeting rooms: Coral and Granite. These rooms are 100 square meters each and can each accommodate 96 guests seated reception style, 84 guests theater style, 60 delegates in classroom seating, 48 at round tables and 27 in a U-shape design.

Also on the lower mezzanine is the eye-shaped Canyon, our main ballroom. From the ceiling, coral-shaped light rods shed a variety of color on the floor, and scattered LED lights twinkle like stars. The Canyon has a built-in stage, with a separate entrance for entertainers, and a special lift that goes down directly from the rooms to the stage.

At 1,800 square meters, the Canyon is ideal for big events, accommodating up to 2,250 reception guests, 2,000 guests theater style, 1,200 delegates in classroom seating and 1,400 at round tables. Using a fabric partition, the Canyon ballroom can be divided into four sections, allowing it to be customized for smaller gatherings.

The lower mezzanine level is also equipped with a freight elevator that can accommodate a passenger car, which makes it an ideal venue for car launches.
